Description	It’s a well-worn cliché, but it’s true: “Knowledge is power,” and nowhere is this more apparent than in our financial lives. Because being deeply invested in money management often feels uncreative, many artists get comfortable with keeping their understanding of their financial health and future as vague as possible, a kind of “if I don’t see it, it doesn’t exist” approach. A critical understanding of artist finances is key in the lead-up to tax season.
