

Artists Thrive National Resource Hub

To increase support for both individual artists and arts organizations, Artists Thrive has created a Data Hub for Professional Development Content. This new platform is designed to:

- improve access to content
- reduce replication of resources
- encourage the creation of new content that addresses learning gaps and emerging trends

If you have content that you would like to be featured on the database, we encourage you to add your content via [our submission form](#) and/or reach out to info@triangleartworks.org with any feedback.
